

Invis 12 mm - Possible combinations

| Type of joiners | Typical application |
|---|---|
|  Wood thread | <ul style="list-style-type: none"> - Solid wood - Ply wood - MDF - Chipboard longitudinal to the surface |
|  to glue | <ul style="list-style-type: none"> - Industrial manufacturing for all materials - Chipboard longitudinal to the surface in central layer - Porous materials - Thin boards because no inserting pressure |
|  Metric thread | <ul style="list-style-type: none"> - Plexiglass - POM - HPL-board - Alu, CNS, nonferrous metal |

| Product | Description | Ref. Nr. | Typical combination and application |
|---|---|--------------|---|
|  | Type: wood thread Materials: wood + derived wood products Application: diverse, materials from 19 mm | 1 | Corner joint <i>wood - wood</i>  |
|  | Type: wood thread Materials: wood + derived wood products Application: corner joint, small drill hole Ø 5 mm | 4 | |
|  | Type: to glue Materials: diverse (chipboard, plastic, alu..) Application: thin boards because no inserting pressure, loose central layer | 1 | Horizontal joint <i>wood - wood</i>  |
|  | Type: wood thread Materials: wood + derived wood products Application: larger traction, for materials with small thickness | 5 | |
|  | Type: wood thread Materials: wood + derived wood products Application: diverse, materials from 19 mm | 3 | Horizontal joint <i>wood - wood</i>  |
|  | Type: wood thread Materials: wood + derived wood products Application: longitudinal reinforcement, drill hole like joiner | 6 | |
|  | Type: metric thread Materials: diverse (alu, stainless steel, perspex, POM) Application: diverse, materials from 19 mm | 1 | Central wall joint <i>wood - plastic</i>  |
|  | Type: 7/8: wood 11/12: metric thread Materials: 7/8: wood 11/12: for alu, perspex ... Application: central wall, distance piece | 7/8 11/12 | |
|  | Type: wood thread Materials: wood + derived wood products Application: diverse, materials from 19 mm | 2 | Corner joint <i>plastic - wood</i>  |
|  | Type: metric thread Materials: diverse (alu, stainless steel, perspex, POM) Application: corner joint, small drill hole M 6 | 9 | |
|  | Type: wood thread Materials: wood + derived wood products Application: diverse, materials from 19 mm | 1 | Mitre joint <i>wood - wood</i>  |
|  | Type: without thread, fixation with screw Materials: diverse (wood, alu, stainless steel, perspex) Application: mitre joint | 13 | |
